

Raffi Molero

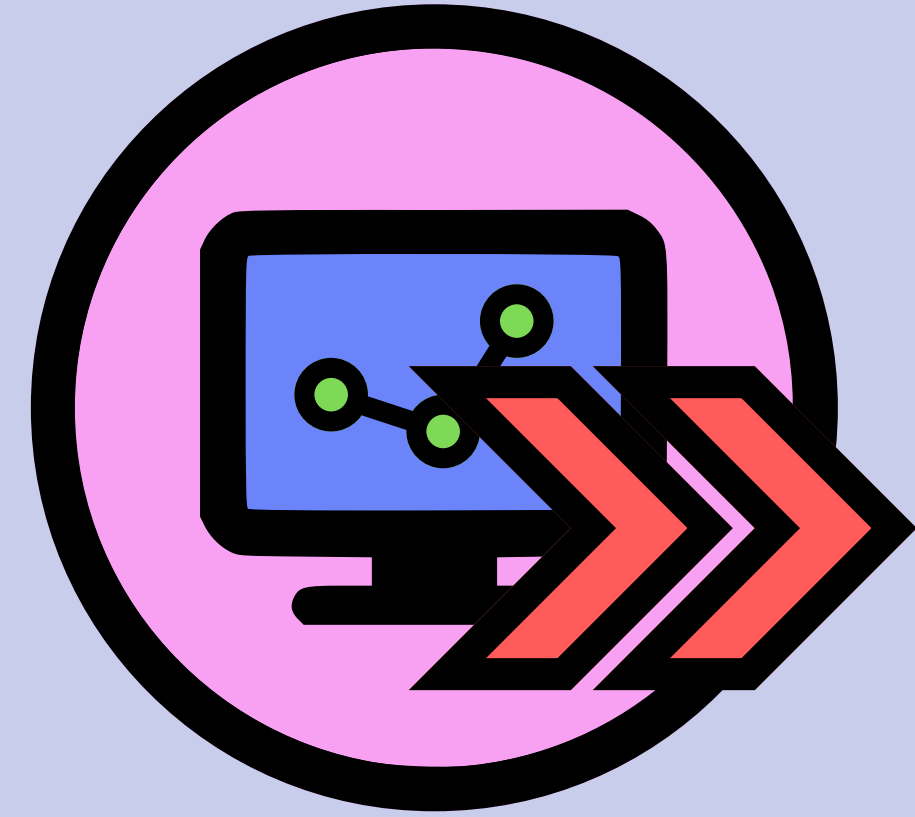

B.S. Computer Science 2-A

About Me...

I'm a **programmer** at heart, and I love optimizing and reverse-engineering things.

I enjoy video games, but my favorites usually involve either factories and logic, or mechanically fast and precise inputs.

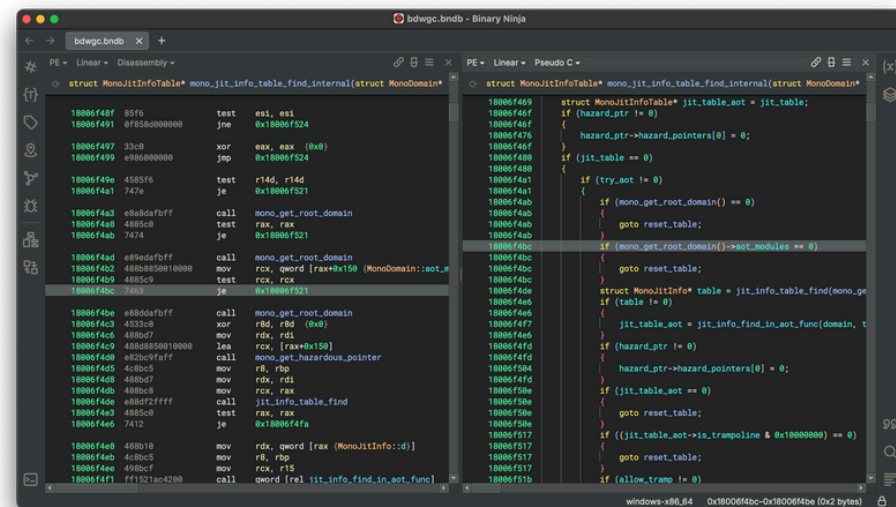

I came from **Cotabato City**, then moved to Davao in Senior High School.

This photo was of me visiting my Elementary School and sitting on my favorite tree <3

Goals

Short-term

- Graduate
- Build a backend portfolio
- Join Cybersecurity contests
- Try a bunch of random stuff
- Learn a bunch of random stuff

Long-term

Get a job as a
reverse engineer to
find weird viruses?

Build my game
to play with
friends?

Maybe teach people
how to code as a
side job?

Thank you :)
